That Terrible Scourge.
Malaria disease is invariably supplemented by disturbance of the liver, the bowels, the stomach and the nerves. To the removal of both the cause and its effects Hostetter's Stomach Bitters is fully adequate. It "fills the bill" as no other remedy does, performing its work thoroughly. Its ingredients are pure and wholesome, and it admirably serves to build up a system broken by ill health and shorn of strength. Constipation, liver and kidney complaint and nervousness are conquered by it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. A Fickle Monarch.
The fickleness of monarchs is proverbial, and is well illustrated by the movements of the King of Siam in Scotland. As originally arranged, the visit was to last a week, Edinburgh and Glasgow sharing alike in the honor of the kingly presence. First, the Glasgow visit was deferred, and then absolutely abandoned, while the visit to the Scottish capital was restricted to a couple of days. Glasgow is feeling nightly sore over this curt treatment, but even some of the King's Edinburgh entertainers have reason for some heartburning.

The royal programme on Wednesday included a visit to Edinburgh Castle, which contains the jeweled regalia worn by the Kings and Queens of Scotland. When the party drove up to the castle gates the King changed his mind, evidently presuming his treasure to be an insignificant article alongside some of his own costly jewels at home. At the North Bridge the resident engineer was about to give an explanation of the principle of contraction and expansion of the bridge, when the King interrupted him with the remark, "It's too wet," and re-entered the train.—Westminster Gazette.

HAS SHOT-GUN QUARANTINE.

TEXANS ARE DETERMINED TO KEEP OUT YELLOW FEVER.

MANY TOWNS ARE BOTTLED UP.

Health Certificates Are Unavailing and the Unwary Traveler Will Have a Hard Time.

A special from Dallas says that the yellow fever fright has struck Texas in earnest. Nearly all towns in the eastern, central and southern parts of the state have declared shotgun quarantine against Houston. In Brazos county, County Health Officer Tabor has given orders to the effect that every road entering the county will be closely guarded and every suspicious rumor run down.

No passenger trains will stop in the county hereafter and there will for the present be no papers or other mails received.

Practical jokers are warned against trying to scare the public. The railroad company has been notified to put in all perishable goods, flour and ice, at once from the north in car lots, the same not to come from nor through an infected point. Trains will no longer be permitted to take sidings for passing Brazos county.

At Dallas no passengers from Houston will be permitted to stop, although there has been no embargo on freight and mail as yet.

The Houston and Texas Central has practically abandoned its train service out of Houston, only one train a day running. The Missouri, Kansas and Texas is running trains through Houston to Galveston, the cars being locked north of Houston and nobody permitted to enter or leave the train. Galveston's quarantine against Houston is absolute. Nothing but telegrams is permitted to pass between the two places. Freight under seal, however, can go through Houston, but must not be stopped.

All the towns along the Southern Pacific, east and west of Houston and on the Houston and Texas Central, have established shotgun quarantine.

BAY STATE DEMOCRATS ACT.

Endorse Chicago Platform and Nominate George Williams for Governor.

George Fred Williams, of Dedham, was nominated for governor of Massachusetts Tuesday by the democratic state convention, in session at Worcester, on a platform that squarely indorses that adopted by the national convention at Chicago last summer. The other nominees are: Christopher T. Callahan, of Holyoke, lieutenant governor; C. D. Nash, of Waltham, secretary of state; John A. O'Keefe, of Lynn, attorney general; General T. A. Watson, of Boston, treasurer and receiver; J. L. Chalifoux, of Lowell, auditor.

George Fred Williams was the principal figure in the convention. There was no opposition to his nomination for governor, but his insistence on the turning down of old party leaders who were lukewarm in support of himself and Bryan last fall created a tumult at the outset before permanent organization had been effected.

The platform, which is a lengthy document, opens with a reaffirmation of allegiance to the principles enunciated by the democratic national convention at Chicago in 1896 and expresses its appreciation of the campaign waged by Mr. Bryan.

FIRST CHLOROFORMED THEM.

The Manner in Which Boecker Prepared For His Crime.

A dispatch from Carroll, Ia., states that John Boecker, the murderer of his wife and five children, still lives, though his recovery is impossible. The son, Henry, shows signs of returning strength, but his physicians say his wound is fatal.

It is now known that Boecker bought a supply of chloroform at Breda some days ago, ostensibly to doctor hogs for cholera.

With this he threw the family into their fatal sleep, and was enabled to commit the murders without assistance. Those who know him best say Boecker's mind has been affected.

INDIANA LYNCHERS SAFE.

County Grand Jury Failed to Find True Bill Against Them.

The grand jury of Ripley county, Ind., has adjourned without finding any indictment against the Versailles lynchers for the reason that they did not succeed in ascertaining any person in it. All the people who would naturally have the most interest in apprehending the guilty parties were brought before the grand jury, but were unfortunately unable to give up anything more certain than suspicion and small circumstances.

The governor has instructed the attorney general to take up and make a thorough investigation of the case.

SPANISH SQUADRON MOVES.

A dispatch to the Frankfurter Zeitung (Berlin) from Madrid asserts that a fearful Spanish squadron will immediately proceed to Cuba on the pretext of attending the installation of the new floating dock at Havana, but really as an answer to the dispatch of the American flotilla to Florida waters.

EMPEROR WAS IN DANGER.

A Determined Plot Against Nicholas' Life Frustrated.

Advices from Warsaw state that though an official denial will be forthcoming, it has leaked out from official circles in a manner as leaves no room for doubt that there was a deliberate and determined plot against Emperor Nicholas at the time of his recent visit to Warsaw. Its success was only frustrated by accident.

Several weeks before the arrival of the imperial party a number of persons, supposed to belong to the German socialist party, undermined Norway Svat, the principal street in Warsaw, between the governor general's palace and the royal castle.

As the tunnel, which had been undertaken from the cellar of a beer house, approached completion, the conspirators became apprehensive of a collapse of the roadway and called in several Polish masons to build supports. The masons, whose suspicions were aroused, notified the police and 130 arrests followed.

Among those in custody are four disguised German officers, either on leave or belonging to the Landwehr, who had been active in the actual work of tunnelling.

A number of merchants and manufacturers from the town of Lodzey, Poland, are also implicated.

FEVER REPORT.

Daily Average of Cases and Deaths In New Orleans Keep Up.

The yellow fever daily average of eighteen to twenty cases and two deaths in New Orleans has kept up.

The record Tuesday showed another death through sheer neglect of the patient, and of the twenty-one cases up to date having a fatal termination, the facts are incontrovertible that at least half have died through lack of attention.

Business is showing feeble signs of revival and the railroads are putting forward superhuman efforts to secure a modification of the quarantine regulations.

Dr. Dunn, of the Mississippi state board of health, reported ten new cases of fever and one death at Edwards Tuesday. There are about ten more cases very sick, and the situation seems to grow worse. Five of the six mentioned as hopeless have had repeated attacks of black vomit. The fever is fast mowing down the white male population, and at the present rate a few immune nurses and doctors will soon have complete control of the town.

Mobile's fever report Tuesday showed what has been the effect of the excessive hot weather of the past six days. There were nine new cases recorded. The board of health's summary was sixty-four cases, nine deaths, thirty recovered and twenty-five under treatment. The ratio of deaths to cases is 14 per cent.

SETH LOW TURNED DOWN.

Benjamin Tracy Nominated For Mayor of Greater New York.

A New York special says: General Benjamin F. Tracy, former secretary of the navy, was nominated by the convention of the regular republican organization Tuesday night for mayor of Greater New York. Seth Low, the nominee of the Citizens' Union, got less than fifty of the 348 votes cast.

His name was received by the delegates and spectators with jeers and hisses, and Jacob Worth, the leader of the opposition to Senator Platt, was cried down when he essayed to present Low's name.

None of the defeated Low men, however, expressed an intention to bolt the regular ticket.

PENNANT MELTING AWAY

From the Erstwhile Indomitable Champions of the Diamond.

There was no joy in Baltimore Monday night. Boston took the rubber in the crucial baseball series, putting her ahead in the fight for the pennant, and there seems to be but little probability that the Champions can save it.

Baltimore's prize pitchers all went down like ripe grain in a hurricane before the terrific onslaught of Boston's batters, until what seemed at first a victory for the home team was turned into a rout, the like of which has been seldom witnessed on the ball field, and more than 25,000 people saw it done.

FARMER KILLS HIS FAMILY

MOTHER AND SIX CHILDREN VICTIMS OF BLOODTHIRSTY FIEND.

COMPLETED THE JOB BY SUICIDING.

Slayer First Used a Shotgun and Wound Up His Bloody Work With a Revolver.

Particulars have been received of the slaughter of a mother and her six children which occurred at the home of John Boecker, a farmer living eight miles northwest of Carroll, Iowa, Sunday night.

After accomplishing the awful deed, the fiendish or demented husband and father, at whose hands they died, completed his bloody work by sending a bullet into his own head, inflicting a fatal wound.

The family was prosperous, and as far as known lived happily. No motive for the tragedy has been disclosed. Boecker's victims are his wife and these children: Caroline, aged four; Christine, aged nine; Henry, aged eight; Lizzie, aged six; John, aged three, and an infant.

All are dead but Henry, and he can not recover from his wounds.

Boecker had an engagement to help a neighbor thresh wheat Monday morning, and on his not putting in an appearance, his brother, Henry, who lives about twenty rods away, went about 9 o'clock to see why he did not come.

The doors of the Boecker house were locked and there were no signs of life about. Henry tried to get in the house, but met no response, and finally he kicked in the door and came upon a horrible scene. Boecker, with his wife and baby, slept in a back room, and the three corpses lay on a bed.

The wife had been shot in the neck with a shotgun which stood in the corner. The baby had been shot and its head crushed with the butt of a revolver.

The man, still breathing, had a bullet hole in the forehead, and by his side was a Smith & Wesson six-shooter with two chambers empty.

The Boecker home is a story-and-a-half frame house, and upstairs Henry and Lizzie lay on a bed with bullet holes in the forehead, the latter dead, the boy still breathing.

In the opposite corner of the same room Caroline, Christine and John were dead, each with a bullet hole in the forehead.

The tragedy was undoubtedly a case of murder and suicide. The indications are that Boecker first dispatched his wife with a shotgun, then used the revolver on the baby, first shooting it and then knocking out its brains with the butt.

Boecker then went upstairs where the five children were sleeping and killed them. He must have used a light for his aim was effective, each victim being shot in the forehead.

Boecker had reloaded the weapon while upstairs and evidently sent the second bullet into the eldest girl's brain just before leaving the room.

Going downstairs he stretched himself beside the corpse of his wife and shot himself. His right hand was burnt by the powder, showing the rapid use of the revolver.

FOUGHT THREE BROTHERS.

Murdoch Stabs One, Whips a Second and Is Killed By Third.

A few days ago James M. Summers and James W. Murdoch, substantial farmers of Union county, S. C., had a difficulty in which Summers was severely beaten.

Just then a brother, J. S. Summers, arrived and took his brother's part. He was seriously stabbed by Murdoch.

A day afterwards C. C. Summers, a third brother, went to see Murdoch. A quarrel ensued and Murdoch was shot, dying in a short time from the wounds.

MAYORS AND COUNCILMEN

Hold Their First Annual Convention In Columbus, O.

The first annual conference of the mayors and councilmen of the United States met in Columbus, O., Tuesday morning with about 160 regular accredited delegates in attendance. The meeting was called to order by Mayor Black in a few formal remarks. He closed by introducing Governor Asa S. Bushnell, of Ohio, who delivered an address of welcome.

At the close of the governor's welcome Mayor Black presented Mayor C. A. Collier, of Atlanta, Ga., who responded for the visitors in a speech glowing with sentiments of patriotism.

TENNESSEE HAS DROUTH.

Crops In the Central Counties Are Suffering For Rain.

Farmers of Tennessee, especially in the middle counties, are confronted with a very serious and disastrous drouth.

There has been no rain for seven weeks, water is very scarce, and supplies have failed in many localities for the first time in twenty-five years. Vegetation is badly injured, pastures and late crops almost failures.

NEGLECT IS SUICIDE.

Plain Words From Mrs. Pinkham, Corroborated by Mrs. Charles Dunmore, That Ought to Bring Suffering Women to Their Senses.

If you were drowning and friendly hands shoved a plank to you, and you refused it, you would be committing suicide! Yet that is precisely what women are doing if they go about their home almost dead with misery, yet refuse to grasp the kindly hand held out to them. It is suicidal to go day after day with that dull, constant pain in the region of the womb and that bloating heat and tenderness of the abdomen, which make the weight of your clothes an almost intolerable burden to you. It is not natural to suffer so in merely emptying the bladder. Does not that special form of suffering tell you that there is inflammation somewhere?

Shall I tell you what it is? It is inflammation of the womb! If it goes on, polypus, or tumor, or cancer will set in. Commence the use of Lydia E. Pinkham's Vegetable Compound. Thousands of women in this condition have been cured by it. Keep your bowels open with Mrs. Pinkham's Liver Pills, and if you want further advice, write to Mrs. Pinkham at Lynn, Mass., stating freely all your symptoms—she stands ready and willing to give you the very best advice. She has given the helping hand to thousands suffering just like yourself, many of whom lived miles away from a physician. Her marvelous Vegetable Compound has cured many thousands of women. It can be found at any respectable drug store.

Mrs. CHARLES DUNMORE, 102 Fremont St., Winter Hill, Somerville, Mass., says: "I was in pain day and night; my doctor did not seem to help me. I could not seem to find any relief until I took Lydia E. Pinkham's Vegetable Compound. I had inflammation of the womb, a bearing-down pain, and the whites very bad. The pain was so intense that I could not sleep at night. I took Lydia E. Pinkham's Vegetable Compound for eight months and am now all right. Before that I took morphine pills for my pain; that was a great mistake, for the relief was only momentary and the effect vile. I was so thankful to be relieved of my sufferings, for the pains I had were so terrible. I am, indeed, very grateful for the good Mrs. Pinkham's remedies have done me."

SOUTH CAROLINA LADIES
DON'T LIE.
Mrs. C. M. Sowan
I have used Dr. M. A. Simmons' Liver Medicine for years, with the most successful results for Sleeplessness, Nervousness, Indigestion and Swollen Feet. It cured Mrs. S. Hammett of a complication of diseases; she says it saved her life. I think it far excels "Zellin's" and the "Black Draught" medicine.
Falling of the Womb.
The cases of uterine displacement are very numerous and constitute a profligate cause of intense and wide-spread suffering. Its symptoms are bearing down or dragging sensations, pain or weakness in the back, sometimes a sense of goneness at the pit of the stomach. It may result from too frequent childbearing, wearing garments that compress the waist and abdomen, over-lifting, standing on the feet too long, and general debility.
We would strongly urge the use of Dr. Simmons' Squaw Vine Wine which will purify and vitalize the blood, give tone and strength to the muscles of the uterus, so that it will be kept in place. To facilitate a quick and complete recovery, we recommend an injection of our Mexican Female Remedy, which will produce the happiest results.
M. A. Rutherford
Waltham, S. C., writes: I have used Dr. M. A. Simmons' Liver Medicine more than 20 years, for Torpid Liver and Bilelessness. I take a dose every two weeks and feel all right. I know it is far superior to "Zellin's Regulator," in my case.
Womanhood.
The health and well-being of mankind depend upon the physical health and perfection of womanhood. Among the diseases which most impair the female constitution are leucorrhoea, irregular and painful menstruation, falling of the womb, chlorosis, scanty or too profuse menstruation. These diseases can be cured. Dr. Simmons' Squaw Vine Wine is a delightful remedy to take, entirely harmless, free from narcotics, purely vegetable and produces no unpleasant after-effects. It is unequalled as a uterine tonic and curative agent for all female diseases, as it is impossible for weakness of the uterus and generative organs to exist when it is faithfully and persistently used. Constipation is another bane of woman's life which can be cured by using Dr. M. A. Simmons' Liver Medicine.
